Hi Anna

We received the load of container number OOCU7022928.

Please see attached photos of the boxes,

1) it does not say exam on the box, this is unacceptable

2) the factory in back of the box is different than the 510k

These 2 issues are major, I don't know how to solve this, my customer is throwing me back the merchandise, I don't have where to sell it now.

If I would have known this I wouldn't sell it to a government account I would give it to someone that doesn't look.

Sent from my iPhone
